

A Journey From Microservice Adoption To Production-grade Expertise

– Amjad Hossain

Why am I here ???

To teach?

No !

Why am I here ???

To teach?

No !

I'm here to share **my experiences** that might sound similar to your **upcoming journey**.

My experiences... ..

4

BroTecs Technology Ltd

A Iridium Satellite based embedded communication system for Aircrafts

My experiences... ..

Secure Link Services Ltd (SELISE)

- Different architectures (N-Layer. Onion, Monolith, Micro-service)
- Different Techstacks (Spring boot, Django, AngularJS, .NET)
- Mentored and guided by an **industry veteran**

My experiences... ..

Shohoj Limited (shohoz)

- Microservice and Event-driven architecture
- A migration from Monolith to Microservice architecture
- Mentored and guided by an **ex-microsoft engineer with 12+ YoE**

My experiences... ..

7

LiquidX Studio

- Microservice with Hexagonal architecture
- Blockchain technology based systems
- Mentored and guided by an **ex-microsoft engineer with 12+ YoE**

My experiences... ..

8

Axi Traders

- Monolith Architecture with a deprecated techstack in **V1**
- Microservice and Event-driven architecture in **V2**
- A slow migrational journey from **V1** to **V2**

Engineering Mindset

9

01. **"Just make it work"**

02.

03.
